CHAPTER III

CONCLUSIONS AND RECOMMENDATIONS

From the results of the data analysis presented in CHAPTERS II and III, it can be concluded that:

Overall the survey results show that the performance of lecturers at the Faculty of Agriculture, Mulawarman University looks good, this shows that in general students are satisfied with the performance of lecturers in their respective Departments/Study Programs. However, there are several suggestions made by students on the instruments provided which should be taken into consideration for the future.

Some recommendations from the results of the analysis and conclusions of this evaluation are:

1. Hopefully in the future this survey can be carried out again and the quantity can even be increased again to obtain valid data.
2. Students need to be given guidance on filling out the Lecturer Performance Evaluation because there are still many students who do not fill out the Lecturer Evaluation Instrument.
