 A group of five people are in a murky pond, working together to install a large, cylindrical concrete structure. One person is standing on the structure, while others are in the water supporting it from different angles. The water is brown and still.	 The pond is now a finished feature. A multi-tiered fountain sprays water into the air from the center. Several lily pads float on the surface. The pond is surrounded by a low stone wall, and there are trees and a building in the background.

BEFORE	AFTER
 The room is cluttered and appears to be a storage or meeting area. It has several wooden chairs, a whiteboard, and various papers and posters pinned to the walls. The lighting is dim.	 The room has been renovated into a modern reception area. A large, light-colored wooden reception desk is in the foreground. Behind the desk, a sign reads "PROGRAM STUDI AGRIENIS" next to a green logo. The walls are clean and white, and the lighting is bright.
